

Certified Fundamental Analyst
Distance Learning Program

Innobuzz Knowledge Solutions

Background

Make a fortune by steady but sure investments. This course is specially designed for people who want to learn fundamental analysis. For Long Term investment calls and in order to get huge Return on Investments, Fundamental Analysis is essential.

This course has been developed keeping in mind techniques which have been used in the past by people such as Warren Buffett, Charlie Munger, Philip Fisher, Benjamin Graham and more. You are required to have basic knowledge about stock markets before joining this course. No previous knowledge is required to take this training program since this starts from the very basic level. However, at the same time, once your basics are clear, the same training program will provide advanced knowledge as well.

Innobuzz Knowledge Solutions

Course Features

Main Menu

Move through hours of in-depth content - quickly and easily due to the efficient and organized structure

PowerPoint

Utilizing PowerPoint presentations enhances the delivery by displaying a variety of visual information to the user. This type of representation allows the user to better interpret the material through charts, definitions, graphs, and more...

Controls

Move forward, back, and repeat entire topics or just a section. A progress bar illuminates as you advance through exercises.

Full Motion Video

All courses feature full-motion videos of instructors teaching the information as if they are speaking directly to you. Our unique delivery simulates a one-on-one classroom environment creating a more personal lesson and learning experience.

Study Guides

Printable study guides for the entire course are available. This allows all material to be viewed, reviewed, and printed for viewing at a later date.

Review Exercises

Each section has a review quiz to aid in the learning process by validating the comprehension of the material covered before moving on to a new section.

Resume

All courses are resumed to where you left off last session allowing you to learn when it is convenient for you without the hassle of remembering where you were.

Live Demonstrations

Demonstrations are a way for the instructor to show and tell the user how to perform a task by actually doing it on screen in front of them. In this format it gives the user the power to see things done by a professional in the intended environment as many times as they would like.

Labs

This course features cutting-edge, interactive labs, which provide a hands-on learning experience. This environment allows you to interact with the software without the need for purchasing it.

Summary

The distance learning kit is a self-paced course, i.e. it does not have a set time frame for its completion, however the recommended duration is 1 month after which one can give the online examination leading to FA Certification.

The kit comprises of a DVD, which contains video recordings of training, screen casts, tools, software, e-book and sample paper as explained above. Along with the DVD, a hard copy of the book is sent.
