PIONEERS IN HIGH KNOWLEDGE DOMAINS

## **Ethical Hacking Distance Learning Program**

## About Innobuzz Knowledge Solutions

Innobuzz is headquartered at **Delhi, India** with strong presence in **Australia, United State of America and Canada**, apart from many other countries. The main activity of Innobuzz is providing training in **Information Security**, which is delivered to its audience **all over the world** via Computer **Based Training Courses, Onsite Training Programs** and Company Owned **learning centers**.

## Pioneers in High Knowledge Domains

Apart from **Information Security**, we have been actively involved in training and implementation in many other **High Knowledge Domains**. Some of them are:

- PHP/MySQL
- Ruby-on-Rails
- Online Marketing / SEO
- Technical and Fundamental Analysis of Stock Markets

## Our Aim

Information Security is still a less explored field in the Indian technical domains. We aim to impart **practical knowledge** in Information Security and Ethical Hacking to the budding technical workforce of the country. Information Security is the need of the day, and people having such skills are very much in demand. We aim to bridge the gap between the demand and supply of Information Security professionals.

## Active Participation in Various Initiations

We have also has been supporting and actively participating various **National Level Information Security Seminars and Summits** such as **EliteX 2008** organized by Department of Information Technology (Govt. of India), **Security Vision 2008** (an IDG Initiative), **NASSCOM Security Summit**, 2 Day **National Seminar on Information Security** at Delhi College of Engineering, Training Workshops in **Modern School, Central Bureau of Investigation** and **IIT Delhi, IMS Ghaziabad** etc

## Industry Tie-Ups

We have strong linkages with the industry. Being partners with organizations like **Microsoft Corporation, IBM, HP** and **Symantec**, we have conducted training programs in many big corporate houses of India. Innobuzz has been **training and certifying** experts in **Ethical Hacking and Information Security** with its **Certified Information Security Expert (CISE) certification**. In the short span of less than two years, we have catered to over **5500 students in Information Security alone**.

## Our Clients

We have provided our services to some of the best colleges in India. Included in our Client list are names such as **IIT Delhi, Delhi College of Engineering, St. Stephens College, Faculty of Management Science, Ambedkar Institute of Technology, Modern School Barakhamba, Delhi Public School** etc.

Some of Our Corporate Clients are **DLF India, IBM, Spice Jet, Computer Society of India, Colt Telecom, Fidelity Investments, Arya Ventures, Dewsoft, L&T, Godrej, FICCI, Govt. Of India** and many more.

## Achievements

- ∴ Trained more than 12,000 Students globally.
- ∴ Presence in more than 20 Countries via our Distance Learning Programs.
- ∴ Having Centers Across India including cities such as **Delhi, Mumbai, Pune & Hyderabad**.
- ∴ Made Clients including **Government of India, FICCI, Colt Telecom, Fidelity Investments, DLF, IBM, Microsoft**, etc.
- ∴ Conducted Training Programs for **IIT Bombay, IIT Delhi, IIT Kharagpur, NIT Trichy, BITS Pilani, BITS Goa, FMS Delhi, Delhi College of Engineering, St. Stephens College**, etc.

## Course Description

The course is designed for people who have theoretical knowledge of basic concepts about networking & the internet. This course will provide detailed & **practical** knowledge on various hacking concepts. The course will be followed by an exam, clearing in which you become a **Certified Information Security Expert (CISE)**

CISE (Certified Information Security Expert) certification is one of the most recognized Indian certification in Information Security and Ethical Hacking. The Program covers all aspects of Information Security and Ethical Hacking, enabling one to become an Information Security Expert. Online Security Breaches are happening at a very fast rate and experts are needed to check and cure these. ITS (IT Security) Experts are in demand. According to NASSCOM, the demand for ITS Experts will be **10 Lakh by 2011** in India. ITS is a THE next big thing in IT and you should make the best of it.

In today's scenario, everything depends on IT. From tax collections, booking the cheapest airline tickets, banking online to trading shares online, you name it! If you aren't a Chapter of IT revolution yet, you are missing on a lot of ease and opportunities. But as they say, everything comes at a price, and the price you pay here is risking your privacy and probably your bank balance! Online Security Breaches are happening at a very fast rate and experts are needed to check and cure these. The demand for IT Security Professionals is expected to be **1 million by 2011**.

## Prerequisites

Basic Knowledge of using computers and the Internet.

## Highlights

- The premier certification in **Information Security**.
- Covers both sides of the coin hacking and security.
- Hands on course with over **50 tools** covered with Live Demonstrations.
- Covers latest **techniques and practices** in the industry along with CASE STUDIES.
- Created by leading security professionals from **IIT Delhi and JHU, Maryland**.

## Details of Ethical Hacking Training DVD

This Training Program contains videos, presentations, demos and case studies in GUI based environment. You can use these CDs to learn Ethical Hacking right from your home and start a career in Information security field.

- . **Content featuring instructor-led classroom sessions with full audio, video and demonstration**
- . **Intensive hacking and counter-hacking hands-on demonstration components**
- . **Printable courseware**
- . **Step-by-step hands-on-labs**
- . **Focused on practical solutions to real-world development problems**
- . **Proven technique- Actual Working Secrets Review**

## Course Features

### **Main Menu**

Move through hours of in-depth content - quickly and easily due to the efficient and organized structure

### **PowerPoint**

Utilizing PowerPoint presentations enhances the delivery by displaying a variety of visual information to the user. This type of representation allows the user to better interpret the material through charts, definitions, graphs, and more...

### **Controls**

Move forward, back, and repeat entire topics or just a section. A bar illuminates as you advance through exercises.

### **Full Motion Video**

All courses feature full-motion videos of instructors teaching the information as if they are speaking directly to you. Our unique delivery simulates a one-on-one classroom environment creating a more personal lesson and learning experience.

### **Study Guides**

Printable study guides for the entire course are available. This allows all material to be viewed, reviewed, and printed for viewing at a later date.

### **Review Exercises**

Each section has a review quiz to aid in the learning process by validating the comprehension of the material covered before moving on to a new section.

### **Resume**

All courses are resumed to where you left off last session allowing you to learn when it is convenient for you without the hassle of remembering where you were.

### **Live Demonstrations**

Demonstrations are a way for the instructor to show and tell the user how to perform a task by actually doing it on screen in front of them. In this format it gives the user the power to see things done by a professional in the intended environment as many times as they would like.

### **Labs**

This course features cutting-edge, interactive labs, which provide a hands-on learning experience. This environment allows you to interact with the software with out the need for purchasing it.

## Course Module

### **Level 1-**

Chapter I – Ethics

Chapter II – Google Hacking
