

The logo for innobull features the word "innobull" in a stylized, italicized font. "inno" is in blue and "bull" is in red. The letters are bold and slanted to the right.

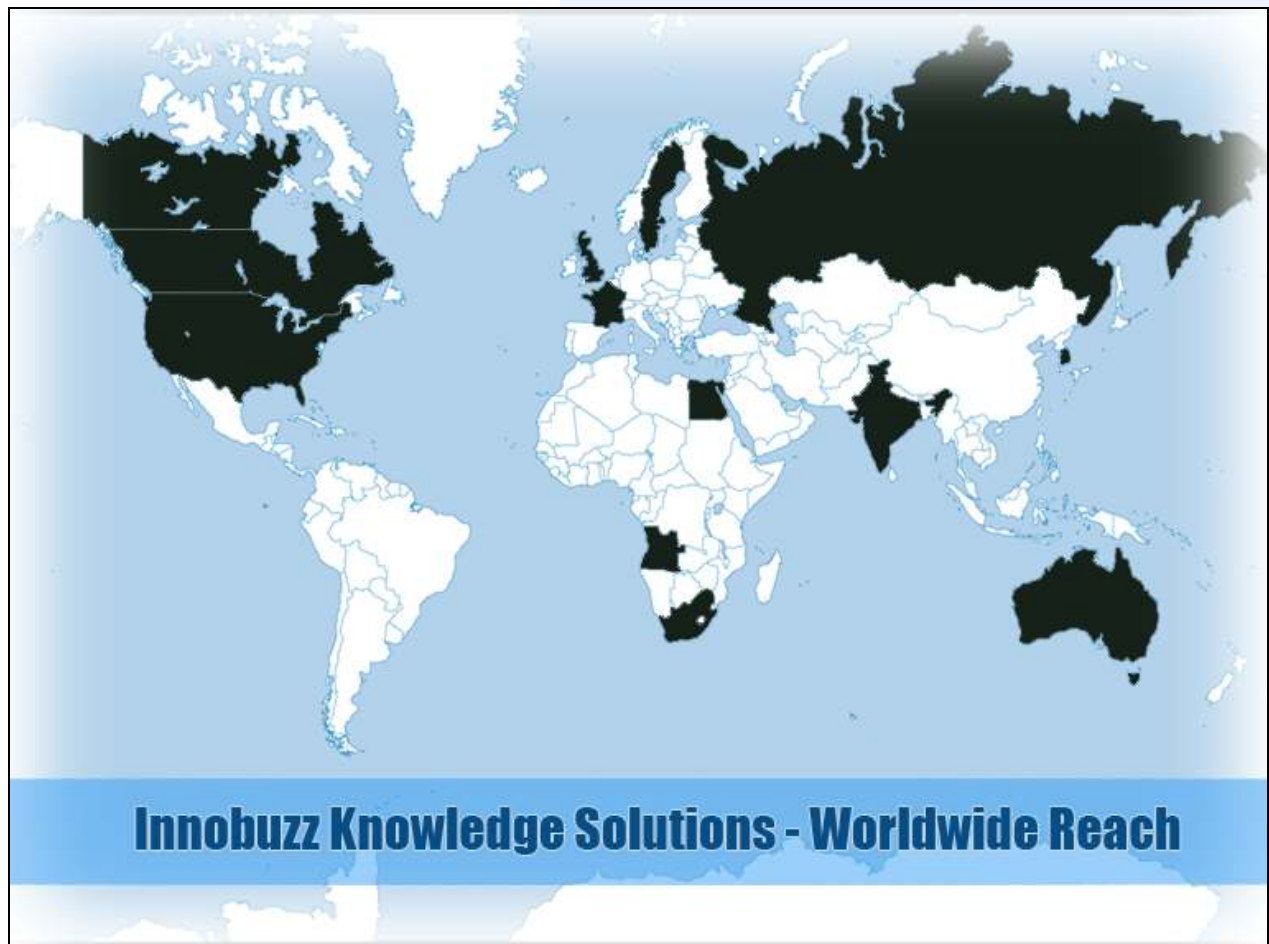

KNOWLEDGE SOLUTIONS

PIONEERS IN HIGH KNOWLEDGE DOMAINS

**PHP/MySQL Distance Learning  
Program**

## About Innobuzz Knowledge Solutions

Innobuzz is headquartered at **Delhi, India** with strong presence in **Australia, United State of America and Canada**, apart from many other countries. The main activity of Innobuzz is providing training in **Information Security**, which is delivered to its audience **all over the world** via Computer **Based Training Courses, Onsite Training Programs** and Company Owned **learning centers**.

## Pioneers in High Knowledge Domains

Apart from **PHP/MySQL**, we have been actively involved in training and implementation in many other **High Knowledge Domains**. Some of them are:

- Online Marketing
- SEO
- Ruby-on-Rails
- Information Security
- Technical and Fundamental Analysis of Stock Markets

## Our Aim

PHP Programming is still a less explored field in the Indian technical domains. We aim to impart **practical knowledge** in PHP to the budding technical workforce of the country. Designing of Web Applications is the need of the day, and people having such skills are very much in demand. We aim to bridge the gap between the demand and supply of PHP Programmers.

## Active Participation in Various Initiations

We have also has been supporting and actively participating various **National Level PHP and Open Source Seminars and Summits** such as **EliteX 2008** organized by Department of Information Technology (Govt. of India), **PHPCamp 2009**, **OSSCAMP 2009**, **Barcamp Delhi 2009** etc.

## Industry Tie-Ups

We have strong linkages with the industry. Being partners with organizations like **Microsoft Corporation**, **IBM**, **HP** and **Symantec**, we have conducted training programs in many big corporate houses of India. Innobuzz has been **training and certifying** experts in **PHP** with its **Certified PHP Professional (CPP)** certification. In the short span of less than two years, we have catered to over **1500 students in PHP Training alone**.

- . **Step-by-step hands-on-labs**
- . **Focused on practical solutions to real-world development problems**
- . **Proven technique- Actual Working Secrets Review**

## Course Module

- PART I – PHP Basics
- PART II – Installing PHP
- PART III – Basic Scripting
- PART IV – PHP Building Blocks
- PART V – PHP Structures
- PART VI – Function
- PART VII – Array
- PART VIII – Working with Forms

PART X – Database Integration - MySQL  
PART XI – More Commands  
PART XII – Dates  
PART XIII – Cookies  
PART XIV – Debugging

## Course Features

### **Main Menu**

Move through hours of in-depth content - quickly and easily due to the efficient and organized structure

### **PowerPoint**

Utilizing PowerPoint presentations enhances the delivery by displaying a variety of visual information to the user. This type of representation allows the user to better interpret the material through charts, definitions, graphs, and more...

### **Controls**

Move forward, back, and repeat entire topics or just a section. A progress bar illuminates as you advance through exercises.

### **Full Motion Video**

All courses feature full-motion videos of instructors teaching the information as if they are speaking directly to you. Our unique delivery simulates a one-on-one classroom environment creating a more personal lesson and learning experience.

### **Study Guides**

Printable study guides for the entire course are available. This allows all material to be viewed, reviewed, and printed for viewing at a later date.

### **Review Exercises**

Each section has a review quiz to aid in the learning process by validating the comprehension of the material covered before moving on to a new section.

### **Resume**

All courses are resumed to where you left off last session allowing you to learn when it is convenient for you without the hassle of remembering where you where.

### **Live Demonstrations**

Demonstrations are a way for the instructor to show and tell the user how to perform a task by actually doing it on screen in front of them. In this format it gives the user the power to see things done by a professional in the intended environment as many times as they would like.

## Summary

The distance learning kit is a self-paced course, i.e. it does not have a set time frame for its completion, however the recommended duration is 1 month after which one can give the online examination leading to CPP Certification.

The kit comprises of a DVD, which contains video recordings of training, screen casts, tools, software, e-book and sample paper as explained above. Along with the DVD, a hard copy of the book is sent.
