PIONEERS IN HIGH KNOWLEDGE DOMAINS

**Technical Analysis Distance
Learning Program**

About Innobuzz Knowledge Solutions

Innobuzz is headquartered at **Delhi, India** with strong presence in **Australia, United State of America and Canada**, apart from many other countries. The main activity of Innobuzz is providing training in **Information Security**, which is delivered to its audience **all over the world** via Computer **Based Training Courses, Onsite Training Programs** and Company Owned **learning centers**.

Pioneers in High Knowledge Domains

Apart from **Technical analysis**, we have been actively involved in training and implementation in many other **High Knowledge Domains**. Some of them are:

- PHP/MySQL
- SEO
- Online marketing
- Information Security
- Fundamental Analysis of Stock Markets

Our Aim

Technical Analysis is still a less explored field in the Indian Stock Markets. We aim to impart **practical knowledge** in Technical Analysis to the budding stock trader of the country. Technical Analysis is the need of the day, and people having such skills are very much in demand. We aim to bridge the gap between the demand and supply of Technical Analysts, for the Indian Trading Markets.

Active Participation in Various Initiations

We have also has been supporting and actively participating various **National Level Technical Analysis Seminars and Summits** such as **EliteX 2008** organized by Department of Information Technology (Govt. of India), Round Table Conference on **Technical Analysis**, Technical Analysis Conclave at **IIM (A)**, etc.

Industry Tie-Ups

We have strong linkages with the industry. Being partners with organizations like **Microsoft Corporation, IBM, HP** and **Symantec**, we have conducted training programs in many big corporate houses of India. Innobuzz has been **training and certifying** experts in **TA** with its **Certified Technical Analyst (CTA) certification**. In the short span of less than two years, we have catered to over **2500 students in TA Training alone**.

Course Description

CTA (**Certified Technical Analysis**) course aims to create professionals who can predict the movement of the stock markets and who can make money even the market goes down! No Previous knowledge is required to take this training program since this starts from the very basic level. However, at the same time, once your basics are clear, the same training program will provide advanced knowledge as well.

With the help of this training program, you will learn a lot of new things including how to differentiate between Trading and Trending Markets, and working in them accordingly. You will also learn the art of working in Intra-day and Positional Trades. You will understand the in-depth physiology of a normal Investor/Trader and how the markets react to this. In-depth sessions on Risk-Reward ratios will also be covered and you will be taught how to analyze a trade on the basis of the opportunity it has in store for you!

Prerequisites

Basic Knowledge of Stock Market and Internet.

Highlights

- The premier certification in **Technical Analysis**.
- Only Training program which provides insights into Intra-day and positional trading.
- Clients of Innobuzz include FICCI, Fidelity Investments, Royal Bank of Scotland, etc.
- Partners of Innobuzz include Microsoft, IBM, AVG, Symantec and many more!
- Hands on course with maximum tools covered including **live demonstrations**.
- Industry endorsed Course, **Training methodology** and Certification.
- Hands on course with maximum live Trading demonstrations.

Course Features

Main Menu

Move through hours of in-depth content - quickly and easily due to the efficient and organized structure

PowerPoint

Utilizing PowerPoint presentations enhances the delivery by displaying a variety of visual information to the user. This type of representation allows the user to better interpret the material through charts, definitions, graphs, and more...

Controls

Move forward, back, and repeat entire topics or just a section. A progress bar illuminates as you advance through exercises.

Full Motion Video

All courses feature full-motion videos of instructors teaching the information as if they are speaking directly to you. Our unique delivery simulates a one-on-one classroom environment creating a more personal lesson and learning experience.

Study Guides

Printable study guides for the entire course are available. This allows all material to be viewed, reviewed, and printed for viewing at a later date.

Review Exercises

Each section has a review quiz to aid in the learning process by validating the comprehension of the material covered before moving on to a new section.

Resume

All courses are resumed to where you left off last session allowing you to learn when it is convenient for you without the hassle of remembering where you where.
