

Diploma in Metasploit & Ethical Hacking

Dear Student

Greetings from Innobuzz Knowledge Solutions!

Online Hackers continually developing new ways to gain access into our Website, networks, business and industries combat these attacks with the aid of skilled security specialists. As a result, Penetration and Vulnerability, Security and Voice-Over IP like areas are currently high in demand. Graduates from the Security program will acquire the IT security skills to help mitigate threats to organizations and gain marketable skills in these employment sectors. Information security is a stable and growing profession more than 80 percent had no change in employer or employment in the past year, and the number of professionals is projected to continuously growing **more than 20 percent annually** from 2014 to 2019.

Considering the high demand in Innobuzz knowledge Solutions pleased to inform you that we are Open for the enrollments for Diploma on Ethical Hacking.
